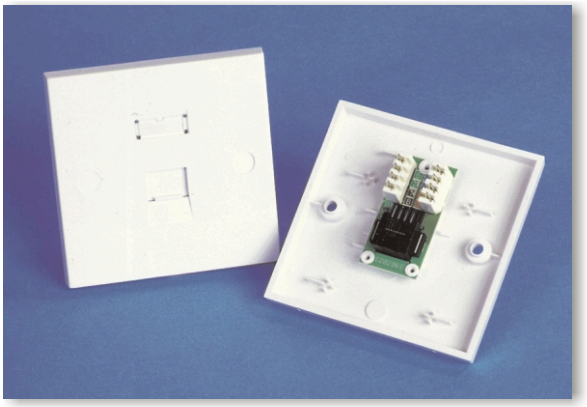
datasheet

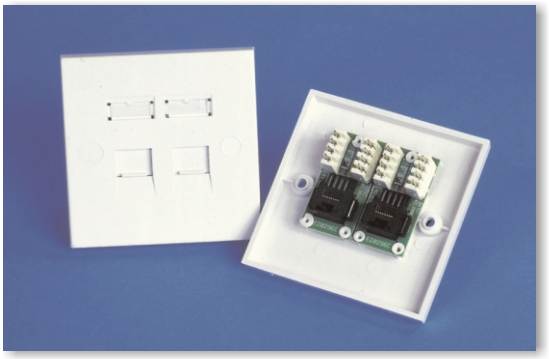
# Category 5e Linejacks

Part of a wide range of structured cabling products, these Category 5e linejacks may be used with matching Category 6e Patch Panels or as discrete components.



Available in single or twin outlet variants, they meet the requirements of TIA/EIA 568-A-5 for Category 5e.

For maximum ease of installation, wire terminations are colour coded to T568B and the jacks are supplied with cable ties and fixing screws for standard backboxes.



As an additional feature, these Category 5e linejacks feature anti-tamper screw caps. As well as enhancing the look of the installed jack, they are also difficult to remove without leaving evidence. This can help discourage unauthorised tampering with the jack; one of the main reasons for post-installation problems with a structured cabling system.

**Technical Summary**

| | |
|---|---|
| Dimensions | 86mm x 86mm x 21mm |
| Backbox depth required | 18mm min. internal (29mm recommended) |
| Colour | Bright white (BT 1P) |
| Faceplate material | ABS |
| Wire termination | Krone style IDC - colour coded to T568B |
| RJ45 sockets | 8 position, 8 contact. Gold plated contacts |
| Accessories | Supplied with cable tie(s), fixing screws for standard backboxes and anti-tamper screw caps |
| Labelling | One clear plastic labelling window(16mm x 5mm) per socket<br>Paper label(s) included |

**Ordering Information**

| Description | Part No. | Carton Multiple |
|---|---|---|
| Category 5e linejack, single | 9LJ2029901 | 200 |
| Category 5e linejack, double | 9LJ2030001 | 200 |
